

Juvenile 2026

*Let's live this journey
the way you love the most.*

Becoming parents is *something unique to
live and love every day.*

In us you will always find an ally, but you
will add the secret ingredient.

Your journey begin and we are happy to do it
together.

Chicco. Live it. Love it.

We *empower parents* every step of the way with *innovative solutions designed for their children's well-being*

With babies since 1958

We are present in *over 120 countries worldwide*

Our *Research Center* is dedicated to the study and understanding of *children and their needs, collaborating with experts from the medical-scientific world and dialoguing with parents*

If *little ones* could choose,
they would *choose Chicco*.

Smart design that combines beauty, practicality,
safety and fun, offering *quality products*,
through every stage of growth.

Designed
for *well being*,
engineered for *safety*

Effortless style,
on the go

Designed to keep
you feeling home

CAR SAFETY

The use of a car seat from the very first trip is the only way to truly protect your child! Chicco develops a wide range of car seats, following the European regulation ECE R 129, to meet the needs of both children and parents at every stage of the child's growth - from birth up to 150 cm (around 12 years).

Only from 150 cm does the law allow a child to travel in the car without a car seat, using only the vehicle's seat belt like an adult.

A few things to keep in mind:

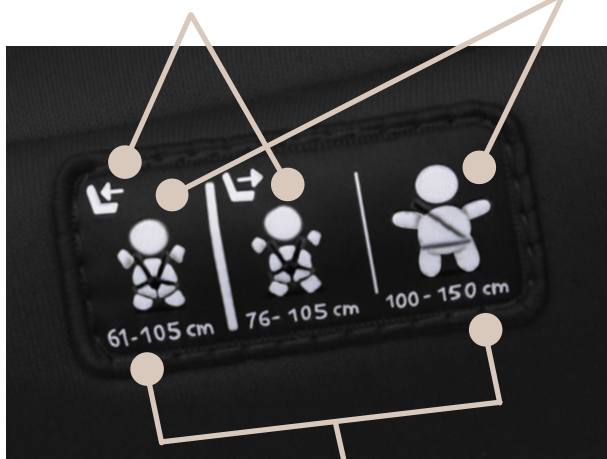

1. It's important that a car seat is homologated. After a transition period, it is now only possible to homologate and sell car seats that comply with the European regulation ECE R 129 (i-Size).
2. According to ECE R 129 regulation, car seats are classified based on the child's height (cm). For certain configurations, it is also necessary to consider the child's weight. This information is available on the product and in the user manual. Note: age is always indicative. The choice must be based on the child's height as indicated on the homologation label.
3. According to this regulation, a child may travel in a car seat restrained with the vehicle belt only from 100 cm in height (not before). 100 cm corresponds to around 3 years of age.
4. Below 100 cm, the child must be restrained by a 5-point harness system (integrated into the car seat). The car seat should be secured to the vehicle using one of the following systems:
 - a. Isofix and top tether;
 - b. Isofix and support leg;
 - c. Vehicle belt.
5. Forward-facing travel is only allowed from 15 months. Until then, rear-facing is mandatory to better protect the child's delicate head and neck. (It is not possible to homologate a forward-facing car seat for use before 15 months.)
6. Whenever a child is restrained with the vehicle belt (from 100 cm onwards), Isofix connectors—if available—are optional. This means installation is always possible even without Isofix.

CHICCO SMART IDEA: **FIT-KIT** EASY FOR YOU. SAFE FOR THEM.

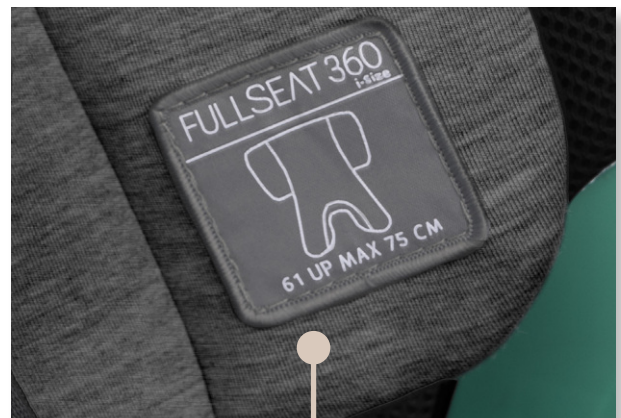

And in order to simplify the usage of the car seat Chicco developed the **Fit-Kit labels**:

Thanks to **easy readable indications** on the product, it is crystal clear how to choose the right product and how to use the car seat in each step, providing the perfect fit in **every stage**.

Travel direction (rear or forward facing) **Child's restraint method** (integrated harness or vehicle belt)

Car seat's type (homologation)

Reducer's usage

FEATURES OF CHICCO CAR SEAT

CHECK WHICH ARE AVAILABLE AMONG DIFFERENT MODELS.

EASY BOARDING SYSTEM

Thanks to a rotative base is possible to move the seat toward parents (at 90°) so that, in case of a car with door lateral to the car seat, is easier to place the child in the car seat without effort for the back and without stress for the child. "Easy boarding system 90" allows to rotate from rear facing to parents facing and back, while "Easy boarding system 360" allows to rotate from parents facing to both rear facing and forward facing, a complete rotation.

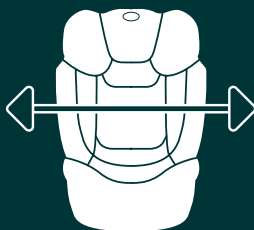

EASY RECLINE SYSTEM

When the child needs relax the car seat can recline in multiple position and is also reduced the risk of head tilting. When the child want to see outside is quickly possible to change the reclination.

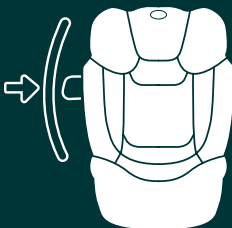

HEADREST ADJUSTMENT

Have the head correctly placed on the headrest is important for the confort of the child and also to protect him in case of impact. With this feature parents can adjust the headrest position to follow every stage of the growth. When the car seat is used with 5 point harness system the headrest is adjusted simultaneously to the shoulder pads.

SHOULDER SPACE ADJUSTMENT

The internal space of a car seat, designed to receive the baby, is required by the regulation depending on the range of homologation. But with the shoulder space adjustment, independent from the headrest, is possible to increase the space for shoulder over the minimum requirement to offer more confort to biggest childs only when needed.

SIDE SAFETY SYSTEM

Lateral crashes are frequent, for this reason is important that, to be homologated ECE R 129, car seat pass not only frontal impact test but also lateral impact. To offer an additional protection in case of impact could be available an additional element that can be activated on the door side. if there is space in the car is recommended the usage of the additional side safety system.

REDUCER

It's a removable accessory designed for the safety and the confort of the newborns. Helps to keep the head and the body in the correct position and to guarantee the correct air flow.

AIR CIRCULATION SYSTEM

The holes on the shells allows a greater air flow so that during warm season reduce the warming up of the car seat and of the child inside.

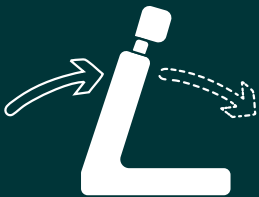

BELT POSITIONER

When the child is restrained by vehicle belt, the belt positioner helps to keep the belt in the correct position in order to protect the child. Lap belt is kept in an optimal position, over child's pelvic bones, reducing the abdominal forces in case of frontal impact.

SAFE PAD

When the child is restrained by vehicle belt, the safe pad offers additional chin and chest protection.

FOLDABLE BACKREST

Thanks to the backrest foldability the backrest of the car seat can be folded so that it's easier to transfer it from one car to another and save space for storage.

EXTRA REAR SAFETY

Travel rear facing protect the head and the neck of a child during an impact. (Consider that in a newborn the weight of the head is 25% of the total weight, while for an adult only 6%). It's strongly recommended to travel rear facing as much as possible, over the period required by law (until 15 months of child) but is important to check how the homologation of the car seat was done and until when is possible to use the car seat rear facing.

ANTI-MISUSE SYSTEM

To better protect the child is mandatory to travel rear facing at least up to 15 months. In order to reduce the misuse the system block the rotation in forward facing before 15 months. In order to move forward facing is needed to activate the system for the 360 rotation.

BAMBOO - SPECIAL FABRIC

Thanks to its softness, the natural bamboo fiber is particularly suitable for direct contact with the baby's delicate skin. Bamboo fabrics are also breathable and have a good ability to quickly absorb and dissipate moisture, helping to regulate the body temperature.

FAST FIT SYSTEM

Insert a child in a car seat with harness system could be sometimes difficult. Thanks to innovative Fast-Fit system, after removing the child from the car seat, the shoulder pads remain open and the buckle hooks remain visible so that re-insert the child in the car seat will not be a problem anymore.

ONE STEP SYSTEM

Helps to quickly detach the isofix connectors from the car, with just one hand, so that is easier move the car seat from one car to another.

 TCS
Children safety seat test
test.tcs.ch 05/2025

CHILD SIZE	AUTHORISED POSITION
40-105 cm  (no air-bag)	
76-105 cm  (>15 months)	

• HOMOLOGATION

Seat105 i-Size is homologated according to the last regulation ECE R129/04 for transporting children from birth till approx. 4 years (40-105 cm).

• FAST-FIT SYSTEM

Innovative system made by elastic bands that help to open and keep the shoulder pads and the 5-point harness system raised, keeping the straps of the belts **always visible and easily accessible**. Place the baby in the car seat will not be a problem anymore!

• EASY-BOARDING SYSTEM 360°

Thanks to the rotation it is possible to rotate the car seat at 90° parent facing position to **easily place the baby** and then rotate it in rear or forward facing direction (360° rotation).

0m+

SEAT105 i-SIZE

ISOFIX SYSTEM

Installation with Isofix System through connectors and Support Leg for a quick and easy installation. Indicators of correct installation present on the Isofix connectors and on Support Leg help the parents in the correct installation.

ENERGY-ABSORBER REDUCER

The Energy-Absorber Reducer is designed to protect newborns by absorbing impact forces (safety) and supporting correct posture during growth (ergonomy).

The Seat105 reducer is made of 3 pieces:

40-60 cm: The use of the reducer is mandatory with all the 3 elements for safety and for ergonomy.

From 61 cm: the reducer is only a **comfort support (for ergonomy)**, so based on the child's needs, parents can decide to remove the reducer or use it (only 2 elements, without the headrest cushion) – maximum up to 75 cm.

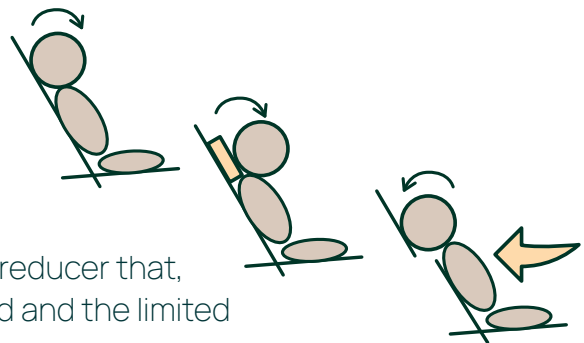

SPECIAL FOCUS ON THE REDUCER'S CONSTRUCTION

Correct posture means:

- Head aligned with spine, not tilted forward to keep airways open.
- Free lateral head movement.

In order to reach this result we designed the reducer that, based on the proportion of the newborn head and the limited neck strength, avoid the head falling forward.

Developed with the Chicco Research center

BAMBOO FIBER: SOFT AND BREATHABLE Headrest and reducer covered in bamboo

fiber: Thanks to its softness, the natural bamboo fiber is particularly suitable for direct contact with the baby's delicate skin. Bamboo fabrics are also breathable and have a good ability to quickly absorb and dissipate moisture, helping to regulate the body temperature.

- SECURE ATTACHMENT PLUS QUICK REMOVAL**
The KidFit® ClearTex® Plus is equipped with premium LATCH connectors and a SuperCinch® one-pull tightener to stabilize the seat and keep it secured when unoccupied. The quick-release LATCH provides convenient, one-hand removal for easy transfer between seats or vehicles.
- BUILT FOR COMFORT**
The contoured ErgoBoost® seat with double foam padding provides comfort and support in all the right places, and a 2-position backrest adjusts to mimic the vehicle seat position. The backrest is also removable to create a backless booster for older children.
- ADJUSTABILITY AND PRACTICALITY**
10-position, easy-adjust headrest provides proper seat belt positioning as kids grow. All fabrics, including armrest covers, are removable and machine washable. Two dishwasher safe CupFolders are easy to remove for cleaning and fold in to save space when not in use.

CODE 087183

One touch can make all the difference! Bellagio stroller has been designed to accommodate the dynamic lifestyle of new parents, our stroller allows them to handle everything – from folding to adjusting the backrest – effortlessly with just one gesture, ensuring the utmost functionality. Engineered with the innovative OneTouch folding system and crafted with meticulous care, Bellagio seamlessly combines practicality for parents and a cozy environment for babies. Experience the perfect harmony of convenience and comfort, all at your fingertips.

one
touch

ONE TOUCH CHANGES EVERYTHING

Thanks to the OneTouch technology, it can be folded with just one gesture, allowing parents to have a free hand or to keep the baby in their arms: just on click on the back of the seat and the stroller will surprisingly fold itself! Bellagio is the first modular stroller with a self folding mechanism in both directions. When folded it's self-standing and features a convenient carry handle.

HOMOLOGATED FROM BIRTH

Bellagio stroller is homologated from birth until 22 kg. The seat is easily reversible, the backrest fully reclines in both configurations and it is adjustable in 4 different positions using just one hand.

BELLAGIO 2 - STROLLER

0m+

**NEW
RUBBER
WHEELS**

PLEASANT DRIVE

The best maneuverability is guaranteed by high performing big wheels, ball bearings and shock absorbers. The ball bearings are present also on the pivoting system. Bellagio wheels are made in TPE, a special rubber which not only give a great look to the stroller, but they also guarantee the best performances on any terrain and durability. Seamless and stable strolls are always ensured thanks to the special wheel pattern designed to minimize vibrations, both for the child on the seat and for the parent driving.

EASY AND SECURE COMFORT

The welcoming and well-padded seat provides a cozy environment for the baby, and the magnetic buckle makes fastening the seat belts quick and easy. Never lose shoulder pads again, thanks to the practical «Stay in place» system.

OBSERVING THE WORLD FROM ABOVE

Higher seat to bring the child closer and encourage interaction with the parent.

XL PROTECTIVE CANOPY

The protective and extendable canopy is equipped with UV50+ and water-resistant treatments. The canopy features a mesh window to always keep eye contact with the baby.

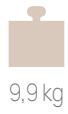

UNFORGETTABLE DESIGN

Prepare to be enchanted by Bellagio's unforgettable design: from luxury anodized tubes, to shiny Chicco metal badges and stylish coated fabrics, every detail has been carefully crafted to make a lasting impression.

One touch that makes the difference! Bellagio Primo stroller has been designed to accommodate the dynamic lifestyle of new parents and to guarantee the well-being for babies, thanks to the 4 seasons seat. Bellagio allows parents to handle everything – from folding to adjusting the backrest – effortlessly with just one gesture, ensuring the utmost functionality. Engineered with the innovative OneTouch folding system and designed with special attention for baby's comfort, it combines practicality for parents and a cozy environment for babies. Special look black and grey to always be cool.

NEW

one
touch

ALL AT YOUR FINGERTIPS

Just One Touch and the stroller will fold itself allowing parents to have a free hand or to keep the baby in their arms. Bellagio is the first modular stroller with a self folding mechanism in both directions. When folded it's self standing and features a convenient carry handle. Furthermore, backrest, leg rest and handle are surprisingly adjustable with one gesture for the best practicality.

4 SEASONS COMFORT

The Bellagio Primo backrest is customizable basing on babies' needs and on weather conditions. The backrest in mesh, truly indicated for summer period, ensures the right air flow in the hottest days, but there is also a special cushion included for the winter season. Well padded and made in natural soft bamboo, the cushion creates the perfect nest to cuddle and protect the baby on colder days. The bamboo fiber is breathable and smooth and it represents the ideal fabric to get in contact with babies' delicate skin.

 BAMBOO

SEETY - STROLLER

CODE 087097

0m+

Seety stroller is born to be city friendly. What distinguishes this product is its lightness, the greatest feature to have when strolling around town for the best practicality. Lightness is not all – Seety stroller stands out for being incredibly smart. All its features have been thought to give parents a practical stroller, complete with all comforts, that can be accessible and extremely easy to use.

CITY FRIENDLY

It's surprisingly lightweight, only 7 kg, and amazingly handy and agile, thanks to the fully equipped wheels with shock absorbers and ball bearings on all wheels. It can be easily folded with just one hand and it's easy and practical to transport, thanks to the integrated carry handle. Once closed, it stands alone and takes up very little space, ideal to be stored anywhere.

YOUR VERY FIRST ALLY

Seety is incredibly comfortable for the baby thanks to the wide and padded seat and the fully reclinable backrest and adjustable leg rest. The seat is easily reversible from parent's view, ideal during the first 6 months, to street view, to let the baby look to the world around him. The large canopy offers utmost protection against UV50+ rays and rain, and the mesh peak-a-boo window lets parents to always keep eye contact with the child.

A CITY TREND

Seety's style is modern, thanks to its monochrome look. The coloured tubes are in perfect match with the fabrics, giving coherence to the stroller.

0m+

GOODY XPLUS

CODE 087040

Goody XPlus stroller combines the OneTouch self-folding technology with elegance and glam, giving parents a stroller made to stand out for both its smartness and style. The stroller is homologated from birth up to 4 years and welcomes the baby with a wide, padded seat with all the desired comforts. The sturdy wheels are able to win every road and give parents a smooth maneuverability for the best strolling experience. And with the dedicated adaptors it's possible to install the Kory i-Size car seats to transform Goody XPlus in a complete travel system.

SELF FOLDING

Just one touch and the stroller will fold itself. When folded it is really compact and stand alone. The bumper bar can be folded as well to achieve a greater compactness or it can be used as a carry handle.

HIGH-END WHEELS

Goody XPlus ensures the best manoeuvrability on all surfaces thanks to the fully accessorized big wheels: shock absorbers and ball bearings on all wheels. The front ones have the possibility to be used locked or free to move and they are equipped by ball bearings also on pivoting system for a wonderful driving experience.

DISTINCTIVE LOOK

Coloured anodized tubes, precious coated fabric on handle, bumper bar and for other stroller's details, and soft touch fabrics refined by premium stitching. Everything has been thought to create a really cool and iconic design.

PREVENTS PLAGIOCEPHALY

When used with the seat in lie down position, Cushy Hug is really helpful from birth. Its structure helps baby to keep the right airways alignment and the infant positioner give the correct containment to the body.

RIGHT POSTURE

When used in semi-seated position, usually between 2-5 months, the infant positioner has to be placed under the baby's knees to prevent the accidentally sliding and to offer a more comfortable ride to the baby.

APPROVED BY PHYSIATRISTS AND PHYSIOTHERAPISTS

The medical approval certifies the benefits of Cushy Hug in terms of comfort and safety. Thanks to its shape, the baby can freely move the head responding to the stimuli and to keep the best posture.

CODE 087163

Dolomiti, approved from birth up to 22 kg, is the perfect lightweight stroller to face any challenge, from city streets to off-road routes. Equipped with large rubber wheels with coloured tread, ball bearings and adjustable suspensions, it allows for agile and smooth driving on all terrains. High driving performance combined perfectly with a seat, equipped with a 3D mesh insert for maximum breathability, which guarantees maximum comfort for the baby in every situation of use. Iconic and innovative design with colored anodized tubes for a modern and attractive look.

NEW

FULLY EQUIPPED RUBBER WHEELS

Big rubber wheels with adjustable shock absorbers for the best driving on any terrain. Both front and rear wheels, and also the pivoting system, come with ball bearings. The front wheels can be used in a swivelling way or fixed. The coloured wheels' tyre perfectly match the anodized tube and the other coloured details.

COMFORTABLE TRIPS

Wide and well padded seat to welcome babies. The headrest area is made in 3D mesh to increase the comfort and to guarantee the best breathability. Practical magnetic buckle to quickly fasten the seat belts and adjustable shoulder belts in 2 positions to follow the baby's growth. Stay in place should pads to always keep the right position.

WELL-BEING AND PROTECTION

Seat homologated from birth till 22 kg; the backrest is adjustable with only one hand in endless positions. Extra long seat in lie down configuration. The canopy is fully extensible to guarantee the best protection: it includes the WR and UV50+ protection treatments. Mesh inserts on lateral side to ensure the right air flow.

LIGHT AND PRACTICAL

One hand fast folding to simplify the everyday's life. When folded it is compact and easy to carry using the bumper bar. It weighs only 7,9 kg.

ATTENTION TO DETAILS

Nice and premium soft touch fabrics emphasized by luxury details, like coloured Chicco logos and insert in coated fabric. Bumper bar and handles are in coated fabric as well for the best feeling and practicality. Coloured anodized tubes in match with plastic components and wheels' tyres.

SUPER ACCESSORIZED

Dolomiti comes with leg cover and rain cover to protect the baby and to guarantee peaceful walks also on colder days.

TAORMINA

CODE 087159

A light, yet super-comfortable stroller, ideal to rest also for grown-up babies, thanks to all the details thought to welcome the baby. Homologated from birth till 22 kg, Taormina is featured by a wide and long seat, and it comes with a soft cushion in natural organic cotton to enhance the baby's comfort. Cozy but also extremely practical for strolling around with the baby thanks to the fully accessorized wheels. Refined details and coloured tubes coordinated with the fabrics for an eye-catching look.

NEW

ORGANIC COTTON

THE MOST COMFORTABLE

The wide and welcoming seat is made even more comfortable by the presence of special cushion in natural organic cotton. It is really soft and gentle with delicate baby's skin to cuddle him in every stage of growth.

XXL SEAT

Best naps on the go are ensured by both extra long leg rest and backrest that in lie down position create a really spacious couch for resting. The backrest is adjustable with only one hand for the best practicality.

4 SEASONS WELL-BEING

Mesh insert on the back to guarantee the right air flow and to keep the baby cool on hot days. For winter period the mesh window can be covered, extending the fabric layer.

TAORMINA

0m+

ONE HAND FOLDING

Taormina folds easily with just one hand. It stands alone and it is super compact and light. Easy to carry taking it by the bumper bar.

SMOOTH RIDES

The fully accessorized wheels, equipped with shock absorbers and ball bearings, will ensure the best comfort on any terrain. Maximum driving agility thanks to the ball bearings also on front pivoting system.

PROTECTIVE CANOPY

Extendable canopy to give an extra protection to the baby and with UV50+ and water resistant treatments. Practical peek a boo window on the top to check the baby whenever parents needs.

	WHY ME?	DETACHABLE BASE SUPPORT	BACK POSITION	WEARABLE AS A T-SHIRT	WEIGHT RANGE
AIRY HIP FIT	Innovative and ergonomic baby carrier	✓	✓		MAX 15 Kg
SnugSupport	The 4-in-1 versatile infant carrier		✓		MAX 15 Kg
eASYFIT	Easy and intuitive			✓	MAX 9 Kg

AIRY HIP FIT

CODE 087188

0m+

Airy Hip Fit carrier is the ergonomic and multifunctional baby carrier with a detachable base support ideal to satisfy all baby wearing's needs. It's made by two elements an inflatable base and a baby carrier – that can be used together or separately giving life to 3 different products and multiple baby wearing options.

AIRY HIP FIT CARRIER

The Airy Hip Fit Carrier consists in a panel plus a base support.

The base guarantees a comfortable and natural sitting position for the baby and helps distribute child's weight around the parent's waist.

AIRY HIP FIT BASE

The inflatable base, without the panel, works like an extension of parents' hip.

It is ideal to hold the baby with one hand only helping parents to keep the right posture.

BABY CARRIER

Without the base, the panel is a smart and traditional baby carrier ideal for all the needs on-the-go.

In this configuration, the additional knit belts help distributing the baby's weight and offer more lumbar support to the parent (Patent Pending).

0m+

AIRY HIP FIT

MULTI-POSITION

Airy Hip Fit carrier offers many carrying positions to satisfy different baby wearing needs.

3m+
PARENTS'
FACING

6m+
FORWARD
FACING

6m+
BACKPACK

FABRICS

Airy Hip Fit is made by innovative 3D flyknit mesh, a breathable and supportive material, ideal to stay in contact with the baby.

BACKREST REGULATIONS

The backrest has an adjustable regulation, to fit the baby as it grows.

HEADREST REGULATIONS

The headrest can be regulated both in height and length, for more comfort and support, at every age.

AIRY HIP FIT BASE

0m+

The Airy Hip Fit Base can be used starting from the very first days in the newborn position as a practical support any time you hold the baby in your arms, also during feeding, and starting from 3 months in a raised position, parent facing, forward facing or hip position depending on your preference.

0+

NEWBORN POSITION

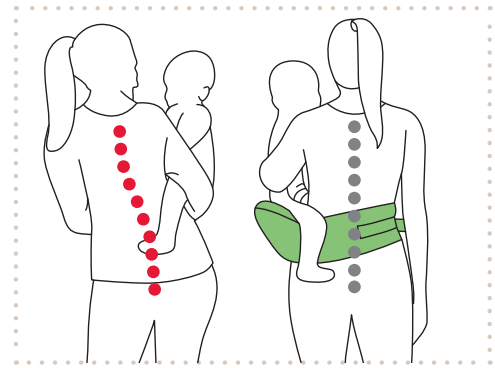

3m+

PARENTS' FACING

3m+

HIP POSITION

By using the Airy Hip Fit base, the baby's weight will be carried by your hips whilst the baby sits on a comfortable seat. In this way your spine remains in the right natural position and pressure is alleviated.

INFLATABLE

The base and the belt are inflatable, thanks to an air pump in the center. The air flow to the belt, gives maximum support and comfort for parents.

SIDE POCKET

Practical side pocket to store the phone or other small essentials to keep on-the-go.

COSLEEPING COT

The ultimate 3 in 1 sleeptime solution that allows parents to use cosleeping as long as they wish, up to 4 years, ensuring a better sleep for parents and baby with total safety thanks to the patented system. In just one product parents can find 3 different functionalities: cosleeping cot up to 4 years, traditional cot and floor bed for toddlers.

"The cot with the lowered side can only be used when fixed to the adult bed in accordance with the instructions for use."

• COSLEEPING UP TO 4 YEARS

Extended dimensions and one hand easy opening and closing barrier to use as a cosleeping solution for longer than standard cosleeper in the market.

• PATENTED SYSTEM

It prevents the side barrier from remaining lowered when the cot is not fully attached to the parents' bed.

• FLOOR BED FOR TODDLERS

Just removing the feet and the lateral barrier, toddlers can easily go in and out from their bed, stimulating their autonomy.

0m+

CHICCO NEXT2ME FOREVER

MANOEUVRABILITY

4 swivelling wheels with brakes to move it freely.

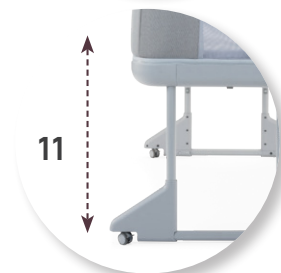

AIR FLOW

All-sides mesh windows guarantee extra ventilation of the cot.

MOMMY POD 4 IN 1

CODE 087176

The next-generation sleep reducer! Designed not just for sweet dreams but for active play, it's the ultimate upgrade for baby's development. Featuring a toybar for endless fun and a revolutionary support that helps little ones lift their head during tummy time—especially in those precious early months.

NEW

0-1 m

1-3 m

0-8 m

MOMMY POD 4 IN 1

0m+

- **GROWS WITH YOUR BABY - FOR NAPTIME**

Mommy Pod 4in1 is perfect from day one: with both ends closed, it creates a cozy space for newborns. As the baby grows, the lower end can be opened for continued use up to 3 months.

- **VERSATILE - FOR TUMMY TIME AND PLAYTIME**

By removing one or both ends, Mommy Pod transforms into a soft mat, ideal for the first play sessions and Tummy Time – a beneficial activity from the very beginning that supports motor development. For added support during Tummy Time, especially for smaller babies, a dedicated cylindrical cushion can be placed underneath the Pod to gently lift the baby's shoulders and chest—like the use of a rolled-up towel—making the experience more comfortable and effective.

- **WITH THE TOYBAR - A MINI PLAY GYM ON THE FLOOR**

With the addition of the toy bar (included), Mommy Pod becomes a playful mini gym: little ones can look at, reach for, and interact with hanging toys, encouraging curiosity and hand-eye coordination. The double-sided pendants feature a colorful side and a high-contrast side in black, white, and red—ideal for stimulating visual development in newborns during their earliest weeks.

- **OPTIMAL AIRFLOW FOR MAXIMUM COMFORT**

Cotton mesh panels in the most sensitive areas encourage proper air circulation, helping to keep your baby cool and dry—even on warmer days.

- **PRACTICAL ANTI-PEE PROTECTION**

A water-resistant insert positioned at the bottom of Mommy Pod helps protect the surface from accidents, keeping the pod clean and dry at all times.

- **ORGANIC COTTON REMOVABLE AND WASHABLE COVER**

The soft organic cotton cover can be removed and machine washed at 30°C to ensure optimal hygiene at all times.

0m+

MOMMY POD 4 IN 1

ENHANCED ERGONOMICS

Mommy Pod 4in1 features an adjustable support cylinder that can be placed under the reducer in two different positions. Especially recommended for babies with motor development challenges, the cylinder promotes proper posture.

The open, unshaped head area allows natural head movement—important for reducing the risk of plagiocephaly and managing gastroesophageal reflux.

Additionally, the differentiated padding between the head and torso areas supports healthy airway alignment and overall comfort.

Chicco juvenile keeps working on the continuous evolution of children's safety regulations, which in Europe regulate the design and production of nursery products. The constant technological development may therefore oblige us to modify our products during the period of validity of the catalogue.

The details and indications provided are therefore non-binding. Furthermore, due to printing process, colours and fabric might result different compared to the real items.

Availability of the products in this catalogue is subject, at all times, to our manufacturing capacity. Regular supply of products is therefore dependant on manufacturing capacities.
